

AS

Aleta Sloan

Professional Summary

Talented medical professional offering a strong history of success in meeting patient needs by leveraging healthcare expertise to diagnose and treat many conditions. Conduct hands-on assessments, collect patient histories and order laboratory tests independently to support patient needs. Self-motivated and hardworking with excellent bedside manner. Seasoned Certified Physician Assistant bringing 30+ years of healthcare experience. Highly analytical and organized with observant, detail-oriented nature dedicated to optimal patient care.

Work History

CCHC Heart And Vascular - Certified Physician Assistant

New Bern , NC

06/2015 - Current

- Carried out therapeutic interventions on patients with Pacemakers, defibrillators, implantable monitors to address acute issues.
- Documented full medical histories, treatment progress and evaluation data in Allscripts on postoperative patients, routine visits, hospital follow up and a majority of consults in Cardiology.
- Effectively reduced symptoms and treated underlying conditions by prescribing targeted medications and therapies with a complex aging population with the number one killer in the United States under physician guidance.
- Completed in-depth physical evaluations and gathered patient medical data to complete speedy, successful office visits.
- Arranged many referrals for TAVR's, Coronary Bypass surgery, Mitral valve repair, AAA repair and multiple vascular procedures including Carotid surgery, and peripheral vascular disease.
- Evaluate and treated Atrial fibrillation, angina, acute MI, acute and chronic heart failure, and vascular disease in a complex patient population with multiple comorbidities consisting of Chronic kidney disease and Diabetes. I initiated treatment using a complex combination of Class 1A, IC, and Class III antiarrhythmic drugs in the setting of complex anticoagulant regimes including NOAC's, and multiple antiplatelet agents.
- Order various stress tests, interpreted data and directed appropriate plans including aggressive medical management, or if an intervention

such as a Left or Right heart catheterization was necessary.

CCHC New Bern Internal Medicine Division - Certified Physician

Assistant

New Bern , NC

06/1996 - 05/2015

- Carried out therapeutic interventions such as minor in-office procedures such as skin tag removal suturing, irrigation and I&D and GYN exam. I functioned what was referred to the "office call Physician" and saw most all acute office visits.
- Documented full medical histories, treatment progress and evaluation data in hand dictation.
- Effectively reduced symptoms and treated underlying conditions by prescribing targeted medications and therapies under physician guidance.
- Completed in-depth physical evaluations and gathered patient medical data to complete speedy, successful office visits.

Craven Regional Medical Center - Certified Physician Assistant

New Bern , NC

04/1991 - 01/1995

- Effectively reduced symptoms and treated underlying conditions by prescribing targeted medications and therapies under physician guidance in the Emergency Room. I was the first PA to work at and receive hospital privileges at what is now known as East Carolina Medical Center.
- Reviewed examination information, laboratory reports and expressed symptoms to make tentative diagnoses.
- Carried out therapeutic interventions to treat major and minor trauma to address acute issues.
